Ahmet Melih Temiz

Software Devoleper

Hello, I'm Ahmet Melih. I studied Computer Programming at Istanbul University Cerrahpaşa and have always expanded my passion for technology through constant learning. Currently, I am a backend developer at Balance Network, working with technologies like Java, Spring Boot, Node.js, and Nest.js. My desire for continuous self-improvement and my ability to work in teams enable me to develop effective solutions, even in complex projects. I aim to contribute to the world of technology with innovative ideas.

Work Experience

Backend Developer

2023 March - Present

At Balance Network, I development of the backend for our company's cryptocurrency exchange. I initiated the project using Spring Boot, later transitioning to Nest.js to enhance the technical infrastructure. In the frontend realm, I have been instrumental in designing user-friendly interfaces with React.js.

I actively contribute to both frontend and backend development in various projects, including decentralized and centralized initiatives. Collaborating with team members, I play a key role in ensuring the successful progression of these projects.
